

Today in Math History...

-14 September 1876

Henry Burchard Fine born.

After earning a Ph.D. in Germany he joined the Princeton Faculty. He is responsible for building that department into a world class mathematics department. The mathematics building at Princeton is named in his honor.

Professor Fine wrote the following texts...

Euclid's Elements (1891)

The Number System of Algebra (1891)

A College Algebra (1904)

Coördinate Geometry (1909)
